- Back-end Development - Node.js, Express.js, Socket.io, NPM
- Database - MongoDB

CERTIFICATES

- Mern Stack Developer - Sheryians Coding School

ABOUT ME

Enthusiastic MERN stack developer with a solid foundation in MongoDB, Express.js, React, and Node.js. Strengths include building efficient, scalable web applications and creating dynamic, responsive user interfaces. Eager to apply my skills and passion for full-stack development to contribute to cutting-edge projects and drive impactful results.

EXPERIENCE

Frontend Developer Intern
CRTD Technology (June 2024 - July 2024)

During my one-month internship as a Frontend Developer on a live project, I gained hands-on experience and enhanced my skills. This opportunity allowed me to apply my knowledge in a real-world setting, improving my understanding of responsive design and user experience.

PROJECTS

Instagram Clone

- Developed an Instagram clone using Node.js, Express.js, and MongoDB.
- Users can create accounts, log in, and personalize profiles.
- Features include post and story uploads, as well as post liking.
- Focused on delivering a smooth user experience with robust functionalities.

VS code Clone

- Developed a versatile VS Code clone using Node.js.
- Users can create, edit, and organize files and folders.
- Includes features for renaming and deleting files and folders.
- Designed with a user-friendly interface for an efficient developer workspace.

Recipe App

- Developed a recipe app using React.
- Users can discover and browse a collection of recipes.
- Features include searching for recipes and viewing detailed instructions.
- Users can save their favorite recipes for later.
